

Pooja Ved

Project Manager · Client Delivery for Skincare, Consumer & Digital Programmes · STEM Researcher

India · Remote, available for US & UK working hours · poojaved25@gmail.com · +91 82909 86230 · sabhyabacchi.com

PROFESSIONAL SUMMARY

Project Manager with 3+ years running end-to-end delivery for consumer brands, client programmes and research teams, most recently for Minimalist (Unilever), one of India's fastest-growing skincare brands. Takes work from brief through scoping, execution, testing, approvals and launch, and has held the client-facing role on programmes across the USA, UK, Denmark, France, New Zealand and India. Trained scientist (DRDO, ISRO, Oxford) who works comfortably with engineers and converts complex detail into plain-language briefs, plans and status updates for clients.

KEY ACHIEVEMENTS

- Delivered **3 skincare product launches** end-to-end at Minimalist (Unilever), coordinating R&D, Brand, Communications, Growth and International Logistics.
- Ran **5 concurrent client accounts** (HDFC Bank, Max Life, Domino's, BlackBerry, IMS) from research to client sign-off.
- Sustained **13 parallel workstreams** through 10 working-group cycles for a global climate advocacy organisation.
- Generated **22.8M+ views** and the highest lead-conversion in the Unilever team; built and rolled out the creative for Minimalist's **US launch in Target** with the US growth team.
- Managed flagship programmes across **4 countries and time zones** (India, USA, Denmark, UK), owning stakeholders, timelines and rollout.
- Led a **6-person research team** at Oxford University for three years: planning, task allocation, experiments and reporting.

PROFESSIONAL EXPERIENCE

Project / Brand Communication Manager — Minimalist (Unilever), Skincare Aug 2025 – Present

- End-to-end launch delivery:** managed 3 product launches from consumer research and briefing through R&D alignment, testing, approvals and go-live, owning timelines, dependencies and sign-offs across 5 functions.
- US retail launch (Target):** created the full creative suite for Minimalist's launch in Target stores and coordinated directly with the US growth team on rollout, working across the India–US time-zone gap.
- Technical-to-business translation:** turned R&D and clinical documentation (peptides, PDRN, GHK-Cu, glycolic acid, vitamin C) into briefs, product-page modules and content commercial teams could act on.
- Consumer research:** led Unilever customer research across 3 markets and converted it into positioning, messaging and campaigns reaching 22.8M+ views.

Project Manager, Programmes & Communications — Untamed Jan 2025 – Jul 2025

- International programme delivery:** managed flagship programmes across India, USA, Denmark and UK, coordinating stakeholders, deliverables and execution across time zones.
- Client and partner communication:** primary contact for mental-health professionals, corporate partners and participants; took Body Image & You, Untamed Circles and The Untamed Letter from concept through planning, scheduling and rollout.

Project Consultant — Evolv Life Nov 2024 – Jul 2025

- Multi-account client management:** led 5 concurrent accounts across BFSI, retail and education (HDFC Bank, Max Life, Domino's, BlackBerry, IMS), owning requirements, feedback loops, approvals and stakeholder communication from research to client sign-off.

Project Manager — Pluriversity Solutions, climate advocacy & social impact Jun 2023 – Oct 2024

- Distributed delivery:** managed projects across India, New Zealand and France in three time zones; sustained 13 post-programme workstreams through 10 working-group cycles and built a global youth-climate stakeholder network.

SCIENTIFIC & TECHNICAL BACKGROUND

- Project Manager & Research Scientist, Oxford University, Dept. of Physics** · Jan 2023 – May 2026 — Led a 6-person team investigating quantum-mechanical effects, including molecular tunnelling, in amyloid-β aggregation, the hallmark of Alzheimer's pathology; owned planning, task allocation, experiments and reporting across physics, molecular biology and a parallel neuroscience group.
- Young Scientist, ISRO, Chandrayaan-3 mission** · Sep 2020 – Jun 2023 — Spacecraft development team of India's lunar landing mission: contributed to the geometric and structural design of the satellite through design, modelling and simulation of its configuration and structural components.
- Junior Scientist, DRDO** · Jun 2018 – Jul 2019 — Defence research in wound contamination and CBRN radiation, from experimental planning through lab testing and analysis across biophysics and microbiology.
